

Bromley Hall Room Descriptions

What are the room configurations?

Options and choices are what Bromley Hall is all about! Not every student wants or needs the same features in a room. Each of our room types offers something special to meet the needs and desires of our residents. The room choices we offer are as follows:

- **Single Rooms:** Single room accommodations are available to those students wishing to have the most privacy. These rooms are located at the end of the hallway and share a bathroom with a standard double. Our single rooms have over 145 square feet and are some of the largest single rooms on campus. The room includes a standard twin bed, dresser, desk, desk chair, a large closet, and a mini-fridge/freezer/microwave combo unit. A hardwired Ethernet Internet connection is also included.
- **Standard Double Rooms:** The standard double rooms in Bromley Hall offer each resident more living space than most any other double rooms on campus. These rooms have approximately 285 square feet of living space and share a bathroom with another double, triple, or quad room. These rooms include two standard twin beds, two dressers, two desks and desk chairs, two large closets, and one mini-fridge/freezer/microwave combo unit. A hardwired Ethernet Internet connection is also included. *Please note that residents requesting a standard double room type may receive a room assignment in either a standard or corner location.*
- **Corner Standard Double Rooms:** Corner standard doubles are located in corner locations and include a half wall that creates a separation between the bedroom space and the desk & closet area. These rooms are the same size as a standard double room and have approximately 285 square feet of living space. They share a bathroom with either a corner deluxe double or single room. These rooms include two standard twin beds, two dressers, two desks and desk chairs, two large closets, and one mini-fridge/freezer/microwave combo unit. A hardwired Ethernet Internet connection is also included. *Please note that residents requesting a standard double room type may receive a room assignment in either a standard or corner location.*
- **Deluxe Double Rooms:** Bromley Hall has one deluxe double room on each floor. This room is a triple sized room (approximately 375 square feet) that only two people share. The deluxe double room shares a bathroom with a triple room. These rooms include two standard twin beds, two dressers, two desks and desk chairs, three large closets, and one mini-fridge/freezer/microwave combo unit. A hardwired Ethernet Internet connection is also included. These rooms are the first types to sell out.
- **Corner Deluxe Double Room:** Bromley Hall has one corner deluxe double room available on each floor. These rooms provide residents with a large corner room that has a half wall, dividing the room into two areas. The corner deluxe double rooms have approximately 300 square feet and share a bathroom with a standard double room. These rooms include two standard twin beds, two dressers, two desks and desk chairs, two large closets, and one

mini-fridge/freezer/microwave combo unit. A hardwired Ethernet Internet connection is also included. The corner deluxe double rooms are usually one of the first types to sell out.

- **Triple Rooms:** Bromley Hall has a limited number of rooms designed for three residents, which provide plenty of living space. Our triple rooms have approximately 375 square feet—125 square feet per student! Triple rooms share a bathroom with a double room. These rooms include three standard twin beds, three dressers, three desks and desk chairs, three large closets, and one mini-fridge/freezer/microwave combo unit. A hardwired Ethernet Internet connection is also included.
- **Quad Rooms:** Bromley Hall has a limited number of rooms designed for four residents, which provide plenty of living space. Our quad rooms have approximately 375 square feet. These rooms are triple sized rooms that provide living space for a fourth person. Quad rooms share a bathroom with a double room. The quad room includes four standard twin beds which are bunked, four dressers, four desks and desk chairs, three large closets, and one mini-fridge/freezer/microwave combo unit. A hardwired Ethernet Internet connection is also included.
